DETAILED ACTION

In the response to the restriction requirement, Applicant elects group II, in that claims 9,11-13 and 15-20 are read on the elected species. In the case if the claims with the elected species are in condition for allowance, then claim 14 will be rejoined and be allowed also.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9,11-13 and 15-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Chem Abstracts 136: 7165 or 136: 7164 or 136: 7161 or 136: 7160 or 136: 7159.

The references disclose the thermoplastic imide oligomer obtained by polymerizing the claimed aromatic tetracarboxylic acid dianhydride with a diamine component and capped by a dicarboxylic acid anhydride having the claimed formulae.

Claim Rejections - 35 USC § 112

Claims 9,15,19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 9,15,19 and 20 are indefinite in the use of "obtainable" since the thermoplastic imide oligomer can be obtained by other mean than those claimed.
